

Your energy dashboard – 2D view

1. This panel shows the conditions in your home at the moment, and indicates whether they are in the ideal range, or something to look into. Clicking on the ? tells you a bit more about each measure

7. This is the main menu, where you can reach the different screens of the dashboard

6. The history button takes you to your data over time, so you can see (for example) how much electricity you were using yesterday. This is also where you can see your hourly data so far today.

5. Here you can access a different view of the dashboard, in 3D

2. Clicking on the £ icon shows you your approximate daily use in pounds, and clicking on kWh shows use in kilowatt-hours. The button will be green when you are viewing use in that unit type

3. This panel shows you your utility use so far today, and for each day in the last week. Clicking on the ? tells you a bit more about each measure.

4. Click on the check box to show information for the kitchen or the lounge

Viewing historical information via the History button

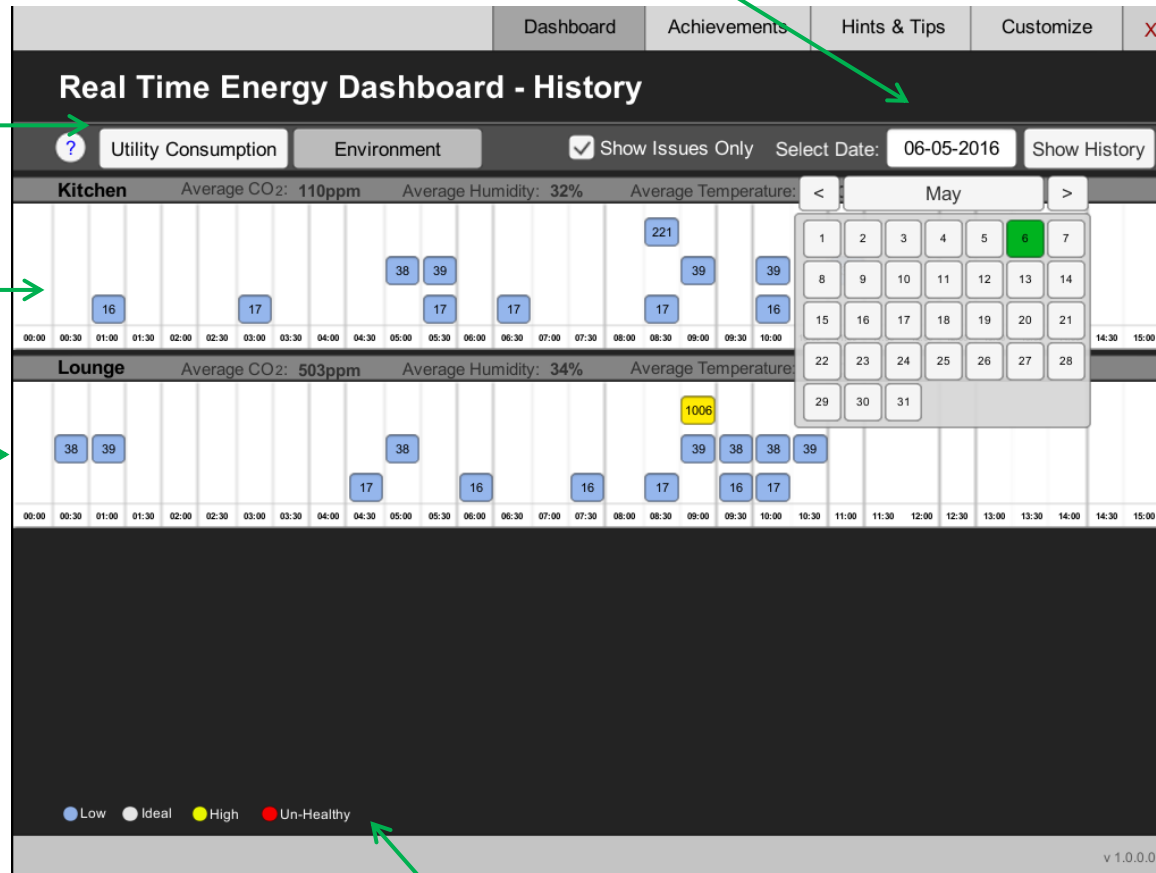

1. First of all, you need to select the date you are interested in and tap **Show History**. You can also use this screen to view more detailed information about today, by selecting today's date.

2. Next decide if you want to look at your utility consumption or the indoor environmental conditions. The one you are currently viewing will be darker.

3. This panel shows the conditions in your kitchen over time, and indicates whether they are in the ideal range, or something to look into. Clicking on the ? above the panel tells you where to find information for each measure

4.and this panel shows the same information but for your lounge

5. This colour key shows you how to tell whether a reading is something you might need to look into further

Your energy dashboard – 3D view

1. This screen shows you some of the same information in a different way. The kitchen and/or the living room will flash red if there is an issue you need to look into. Your house does not have sensors in other rooms so these rooms will not show issues. You can find out more about the issue, and the time it was recorded, on the bottom panel. For further information about the issue, you should look at the 2D view.

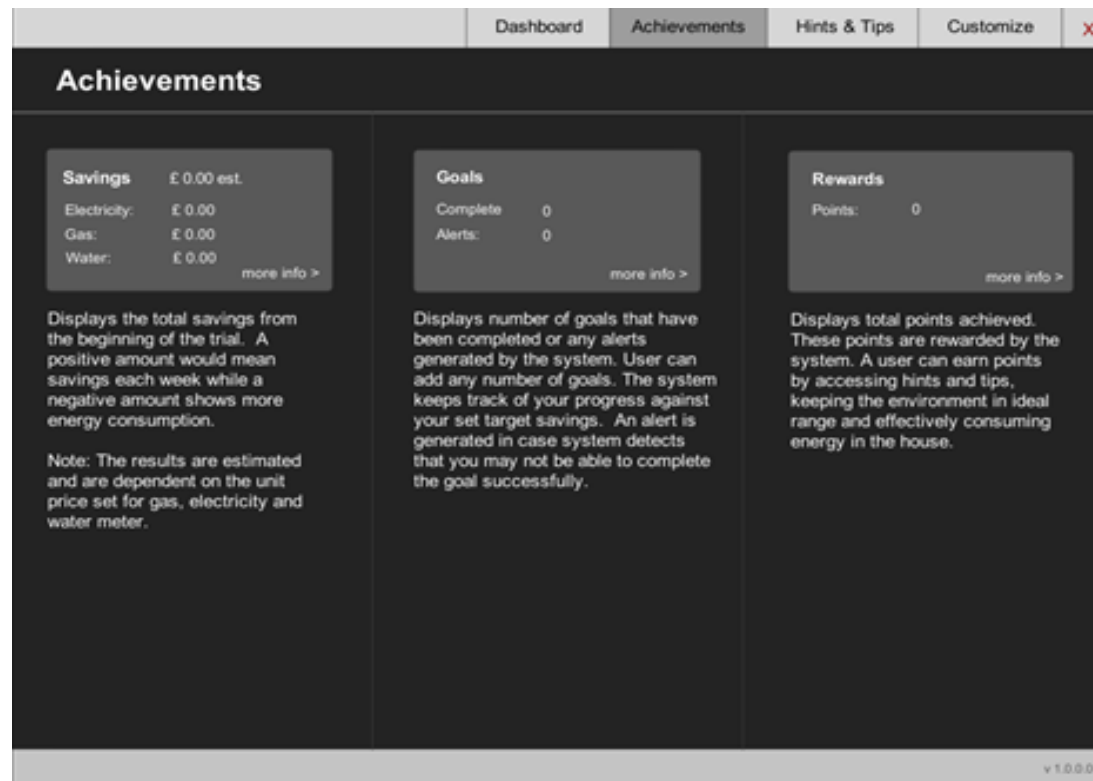

2. Tapping on a room takes you to the hints and tips house. In a later update to the application, you will be able to see hints and tips about how to address issues with the indoor environmental conditions in your home (humidity, carbon dioxide and temperature levels).

3. Tapping **Plain** here takes you back to the 2D view

Achievements menu screen

1. This screen summarises the savings you had made since the start of the trial, any goals you have set yourself, and any rewards you have earned. You can tap on each box to look in more detail.

Exploring your savings

1. Here you will be able to see your estimated savings, in pounds and pence.

Dashboard Achievements Hints & Tips Customize X

Achievements - Savings

Displays saving (est.) made from start of the day (12am) until now.

User can select a month to see how much they have saved (est.) during that month.

Note: The results are estimated and are dependent on the unit price set for gas, electricity and water meter.

Month	Total	Electricity	Gas
January, 2016	£ 0.00 est.	£ 0.00	£ 0.00
Today		£ -0.01 est.	£ 0.10 est.

< 2016 >

Jan	Feb	Mar	Apr
May	Jun	Jul	Aug
Sep	Oct	Nov	Dec

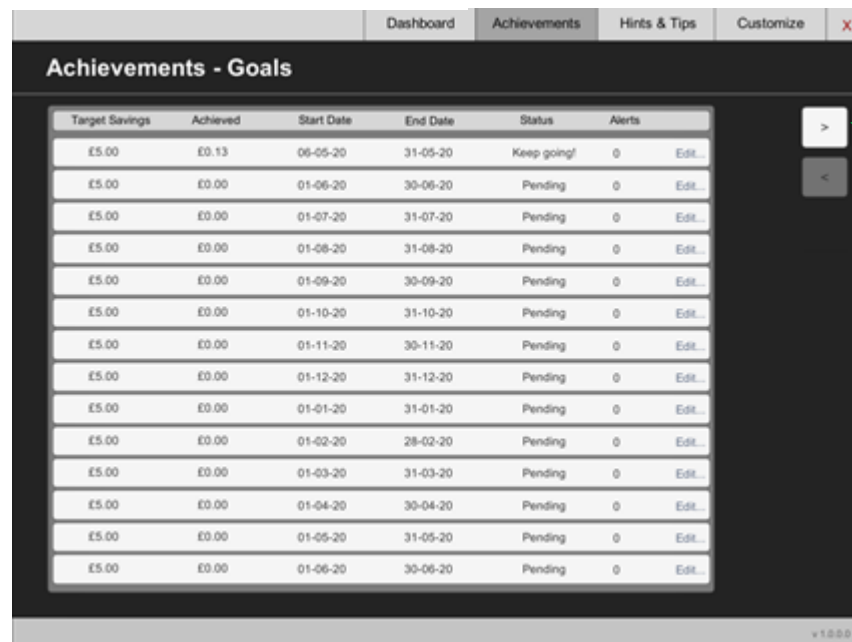

There is not enough data to compare and calculate savings. v 1.0.0.0

2. Selecting a month and a year allows you to see your savings within that month, compared to the same time the previous month.

The app can only show information starting from the month in which your equipment was installed.

Viewing and setting your goals

1. Here you can see any targets you have set yourself and how much you have saved so far.

The screenshot shows the 'Achievements - Goals' screen with a table of savings targets. The table has columns for Target Savings, Achieved, Start Date, End Date, Status, and Alerts. A green arrow points to a right-pointing arrow button on the right side of the table.

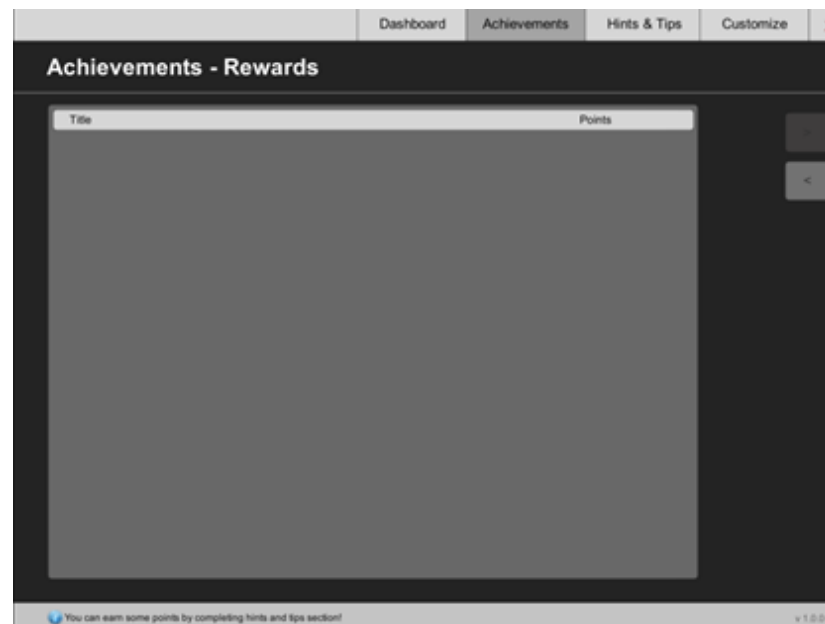

Target Savings	Achieved	Start Date	End Date	Status	Alerts
£5.00	£0.13	06-05-20	31-05-20	Keep going!	0
£5.00	£0.00	01-06-20	30-06-20	Pending	0
£5.00	£0.00	01-07-20	31-07-20	Pending	0
£5.00	£0.00	01-08-20	31-08-20	Pending	0
£5.00	£0.00	01-09-20	30-09-20	Pending	0
£5.00	£0.00	01-10-20	31-10-20	Pending	0
£5.00	£0.00	01-11-20	30-11-20	Pending	0
£5.00	£0.00	01-12-20	31-12-20	Pending	0
£5.00	£0.00	01-01-20	31-01-20	Pending	0
£5.00	£0.00	01-02-20	28-02-20	Pending	0
£5.00	£0.00	01-03-20	31-03-20	Pending	0
£5.00	£0.00	01-04-20	30-04-20	Pending	0
£5.00	£0.00	01-05-20	31-05-20	Pending	0
£5.00	£0.00	01-06-20	30-06-20	Pending	0

2. Tap on the arrow to see more goals.

Seeing your rewards

1. Here you can see how many points you have earned through completing different sections.

The Rewards system is still under development, so if you have any ideas for what you would like to see here, do let us know!

The screenshot shows the 'Achievements - Rewards' screen with a table that has columns for Title and Points. The table is currently empty. A green arrow points to a right-pointing arrow button on the right side of the table.

Title	Points
-------	--------

You can earn some points by completing hints and tips section!

v 1.0.0.0

Hints and Tips

1. On this screen you can find out ways of saving energy and making your home environment healthier.

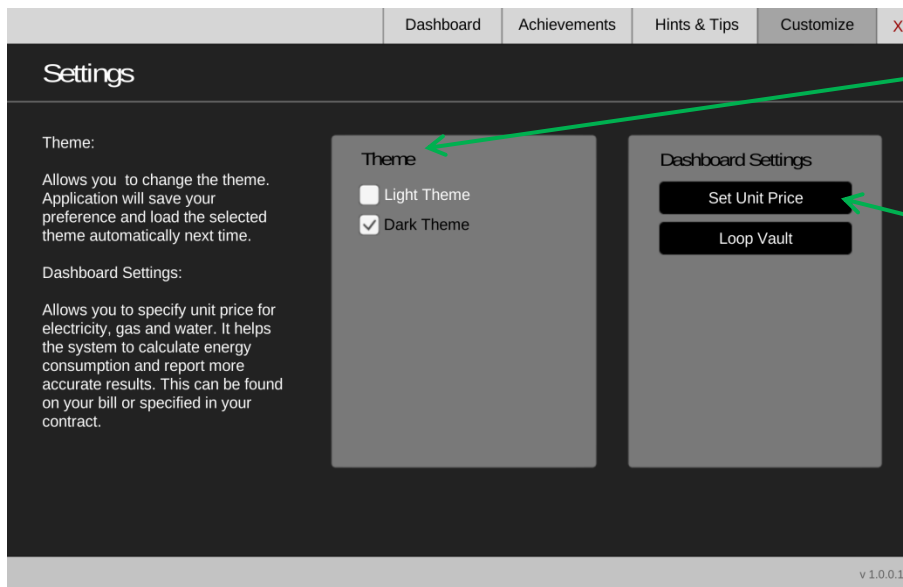

2. You can navigate to other rooms in the house to read tips related to those rooms.

3. Tap on any appliances or items that are flashing red to read related tips. For example, tapping on the sink shows ways in which you can reduce your energy use by saving hot water.

4. This bar shows you real-time information while you are navigating on other sections on the dashboard.

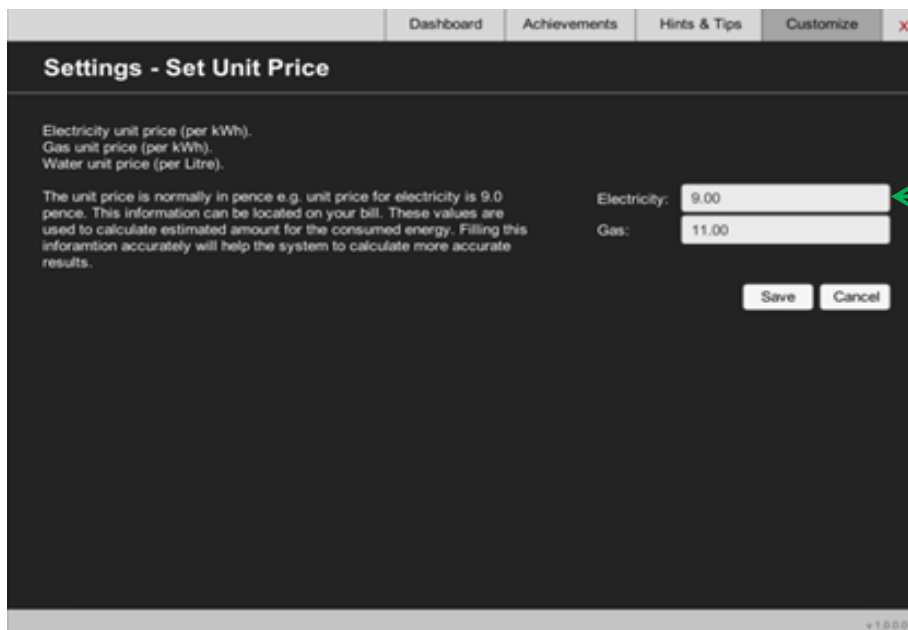

Setting the theme and your unit prices

1. Tapping the **Customize** button on the menu bar takes you to the settings page.

2. You can change the colour scheme of the dashboard application here.

3. Tapping **Set Unit Price** allows you to update your electricity, gas and water unit prices if these change. Initially we will set these up for you.

4. You can view and change you unit price here, and click **save** to confirm any changes. This is how we calculate your spend and savings.

Economy 7 customers will see a weighted average unit rate across day and night. In a later update to the app, we will add functionality to have a separate day and night rate.
